

## Side Milling Cutter | AluCut | 40 × 4.4 mm also for UHSS applications

For milling of all types of aluminium

Especially for aluminium

Extremely precise removal of weld seams due to special toothing

Special arbor with "drive pin"

For all common straight and angle grinders with a 6 mm diameter mount

The AluCut disc milling set is ideal for machining hard and high-strength materials like Usibor. Its special tooth design enables precise removal of weld seams. Equipped with a special holder and a „driver,“ it ensures safe operation and is compatible with straight and angle grinders with a 6 mm mount.

### Item no. 637117

Scope of delivery:

- 2 × SK AluCut side milling cutters
- 1 × Mandrel SK AluCut Ø 6 mm
